

# VIEW FROM MY WINDOW

Utne/Norway #STAYHOME

Press release 13th April 2020

## Windows of the confined, an unexpected global sharing

**600.000** members in 20 days for this FBook page «View from my window».

A real worldwide phenomenon.

-----

To compensate the anxiety, the confinement and the loneliness imposed by the Covid19, the graphic designer **Barbara Duriau** launched a FBook group on Monday March 23rd.

There are plenty of initiatives but this one brings a breath of fresh air from all over the world. The concept? Connect all the confined people around the globe!

Every day, from their window, they capture the scenery and offer it to others. An alley, the opposite building, a boulevard, the roofs, a wall, the ocean...

*From Brussels to Tokyo, Paris, Buenos Aires, Athens, Mexico, Amsterdam, Bangkok, Barcelona, Kiev, Papeete, Darjeeling, Dunedin, London, Canton, Austin, Milan, Dubai, Reykjavik, Charlottesville, Ouarzazate, Palm Spring, Makati, Kathmandu, Auckland, Hong Kong, Christchurch, Tel Aviv, Lapland, Cairns, Buena Vista, ...*

Each picture reflects the daily atmosphere of the confinement and it's living environment.

The reflect of the disparity, the contrasts... The confinement is not lived the same way whether you are living in Miami or in Liège in Belgium.

The internet users are grateful and breathe...

### **Their comments?**

«At my age (73 years old) I was afraid I would never be able to travel again, but I was wrong»

«You are drawn to this group»

«It's a window to the world»

«It's a life's journey during corona»

**Warning:** this group is very contagious, very addictive but you enjoy it without moderation.
